THE HARDEST MISSIONS ARE THE ONES WE TRY TO FACE ALONE.

Hi, We're **ROGER**.™

Our mental health services are built specifically for the military community.

ROGER is a wellness service that provides FREE suicide specific treatment and crisis intervention services specifically for U.S. veterans and service members.

We serve all U.S. veterans and service members, regardless of your branch of service, discharge status, your age, your gender, sexual identity, or your years of service.

The **ROGER** team is licensed and highly trained to provide care specific to suicide prevention.* Many of our counselors have served in the military or are military family members.

If your challenges feel overwhelming and continue to escalate, we're more than just a crisis line and we're with you for as long as it takes to get you back on your path. Our treatment is proven to save lives.

WHAT TO EXPECT:

1. Reach out to us via phone or web request to get the process started.
2. We'll connect with you quickly to confirm your information and provide crisis support if needed.
3. We'll then contact you again to set up your intake session.

From there, it's up to you and your **ROGER** Wellness Coordinator to customize the treatment and resources you need to move forward.

All **ROGER** services are virtual and your counselor will work with you one-on-one to find treatment that works for you.

Need crisis intervention? **We got you.**
Proactive planning? **Got you.**
Reforming of habits? **Yep.**
Help navigating the system? **Check.**
All of the above or something else? **ROGER.**
